Bryan's Tasteless Vermifuge.

Toll the bell for pretty Nell.
All the household's pride.
She died, they say, of worms she prey.
Although with med'cine plied,
'Twas Jalap, Mercury, and gamboge,
That helped her toe her doom
But Bryan's Tasteless Vermifuge
saved thousands from the tomb.

IMPORTANT TO FEMALES.

DR. CHEESEMAN'S PILLS,

Prepared by Cornelius L. Cheeseman, M.D.,
NEW YORK CITY.

THE COMBINATION OF INGREDIENTS in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities, Painful Menstruation, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, fatigue, pain in the back and limbs, &c., disordered stools, which arise from interruption of nature.

TO MARRIED LADIES,

Dr. Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies should never hesitate to use other Pills after they have the utmost confidence in Dr. Cheeseman's Pills doing all that they represent to do.

NOTICE.

There is one condition of the female system in which these Pills cannot be taken without producing A PECULIAR RESULT. The condition referred to is PREGNANCY—the result, MISCARRIAGE. Such is the irresistible tendency of the medicine to restore the sexual functions to a normal condition, that even the reproductive power of nature cannot prevent it.

Warranted purely vegetable, and free from any thing injurious. Explicit directions, which should be carefully observed, accompany each box. Prices $1. Sent by Mail, on receipt of money, to Dr. CORNELIUS L. CHEESEMAN, Box 4231, Post Office, New York City.

Sold by the Druggist in every town in the United States.

Dr. Jas. McClintock's Pectoral Syrup

STANDING IN THE FIRST RANK OF its profession. Dr. McClintock has given his attention to the world under the guaranty of his high reputation, as a means of certain, immediate, and permanent relief in diseases of the throat and lungs which have defied all other remedies.

Price $1. Sold by Henry Foss, Jr., and other druggists. mar17dim

MOTHERS! MOTHERS!

DON'T FAIL TO PROCURE MRS. Winslow's Soothing Syrup for children teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it to be the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arises from teething or any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

☞ None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper.

THE PUBLIC BLESSING WHICH IS now so universally admitted to exist in Moffat's Life Pills and Phœnix Bitters, is every day demonstrated by their astonishing efficacy in the cases which they are announced to cure. All the complaints of the stomach and bowels, weakness of the digestive organs, want of tone in the system generally, bilious and liver affections, night fevers, head aches, piles costiveness, consumption, rheumatism, scurvy, impurity of the blood, or blotched and pimply complexions, soon yield to their curative properties. A single trial invariably secures them the title of the best family medicine now before the public. For sale by the proprietor, W. B. MOFFAT, at his office, 335 Broadway, and by Store Keepers and Druggists generally. oct15&22d&wawly

BRING FLOWERS.

Bring flowers, fresh flowers, for the maiden fair,
Who hath laid her down to rest;
Twine them amidst her shining hair,
Lay them upon her breast.

Bring the bright rose, the queen of flowers,
And the lily, pure as snow;
She loved them well in her living hours,
Scatter them around her now.

Bring ye wild flowers from the vale and wood,
And the banks of the silver stream,
For in those green depths of solitude
She hath loved to sit and dream.

Bring delicate ferns, whose feathery leaves
In the crystal waters lave,
And bright green moss which carpet weaves
Where the cool dim shadows wave.

And gather the softly-tinted rose,
And the frail anemone,
And the violet, springing where bright water flows,
In its tuneful melody.

Like our gentle one in her quiet sleep,
They are frail, and pure, and fair,
Then let them in their vigils around her keep,
And their fragrance fill the air.

Fit types are they of the glorious life
Our loved one is living now—
Then bring ye wild flowers with fragrance rife,
Wreathe them around her brow.

A Man Starving His Mother to Death.

It may be somewhat of a satisfaction to know who is the vilest wretch in the world, and what quarter of the globe he pollutes with his presence. This information is furnished by the Cleveland *Leader*, in the account of a late discovery in that city of the treatment of an aged woman, by an unnatural son and his second wife. The man's name is Willis Graves. Describing the condition in which the poor old mother was found by neighbors who compelled the family to admit them to an examination, the *Leader* says:

"A year or so ago she was removed from her former chamber to a small back one, in which she has been ever since, and there she would have shortly died in destitution and want, had not the community been so roused up as to compel a change for the better. The furniture of this room has been a bed, a table and one chair, and these of the cheapest and commonest kind. The stove has been so long neglected that it was as rusty as an anchor, and everything was of the meanest possible description. Some six weeks ago, Mrs. Graves was so reduced as to be confined to her bed, and there she was suffered to lie, day after day, with no one to sit with her, no one to cheer her, no one to care for her. She said to a friend, 'I love little children dearly, and I want to have them up here to see me, but they will not allow it.'

"She had laid on the bed too weak to move or help herself, day and night, totally neglected except once a day, at noon, when she was tended for a few minutes by two German women, and a bit of dry toast given her to eat, and with this bit of toast as her *only meal* in twenty-four hours, she has wasted away until she is now a bare skeleton. It will seem incredible that a son and daughter could so forget all the principles of love, affection, or common humanity, as to thus systematically drag an aged parent down to the grave, and were not the evidence too strong to be disputed, we would credit no word of it; but when one person tells us of concealing an orange in her pocket and giving a piece to the old lady, who seized and swallowed it as ravenously as a wild beast; and another that on her miserable bed was no sign of a sheet, but that she lay on the bare straw bed until festering sores covered her back and limbs; and another that she was totally neglected in her bed, when too weak to move, for three days; and that when her son was remonstrated with for his unnatural conduct, he sneeringly asked, 'What's the use of taking bread from the living, and giving it to one three-quarters dead?'—then it is surely time that the world knew it."

TREATMENT OF DYSPEPSIA.—A remedy which has for a long time been used by Dr. Nelson, and subsequently by many French physicians, as well as in our own country, under the name of pepsin, for the cure of dyspepsia and other functional derangements of the stomach, has, it is stated, been prescribed freely by some of the most eminent London physicians. It has been very favorably noticed by Drs. Ballard and Sieveking. Dr. O'Connor has also tested its value in those cases in which it has been recommended, but not with the success attributed to its use. He was led subsequently to have recourse to lactic acid, a remedy which he believes likely to be more beneficial in those affections of the stomach in which the so-called pepsin has been administered. Before using the acid internally, he placed, in order to test its digestive powers as compared with pepsin, an equal weight of animal fibre in equal proportions of pepsin and lactic acid, in separate vessels, in an equal temperature, when he found that the fibre in the lactic acid was reduced to a pulpy state in a very much smaller space of time than that which was put into the pepsin. After a trial in a large number of cases, he considered that the good results following its use fully justified him in recommending its use as a remedy in those affections of the stomach already alluded to. It is very necessary that the lactic acid should be of chemical purity and of uniform strength.

THE FOLLOWING is supposed to have taken place in Wausau, Marathon county:

SCENE—Saloon, Sunday evening—Fast young man having a quiet game of "seven up," with several companions around as lookers on.

F. Y. M.—(Who wishes to say something sharp, but has no idea of carrying out the joke.) "Here little boy, run up and tell Rev. Mr. G. that I am busy playing 'seven up,' but will be at church soon as I finish this game"

Ha! ha! ha! all round. Exit boy.

SCENE CHURCH—Minister engaged in the service—enter little boy in haste.

L. BOY—"Mr. G.: Mr. S. is playing cards down to Lon Green's Saloon, but will come to meetin' soon as he gets through the game."

(Minister *somewhat* astonished.

SALOON—Little boy returns and reports.

(Bigger ha! ha! than before.)

Claims his dime, fast young man looks down in the mouth and stands treat, but does NOT go to church.

A BISHOP'S HUMILITY.—A visitor at Gambier, O., who called upon Bishop Bedell and his wife, writes to the Cleveland *Herald*:

"I have seen the 'Bishop's palace.' Here it is called the Park Cottage; named so from the fact that of all the dwellings in the Cottage Park, this is the most diminutive. There is not an Episcopal clergyman in Ohio, who has five hundred dollars a year, but would turn up his nose at such a parsonage, and I can hardly say he would do wrong. The humble Episcopal residence, that seems completely to fill the Bishop's eye, and the manner in which Bishop Bedell instantly engrossed himself in his new duties, are in most admirable contrast with the heart-burnings, and ill-feelings engendered in another western diocese, by reason of alleged unwillingness of the family of its diocesan to leave the luxury, the comforts and the style of the city, for the 'common doings' of prairie life."

A SUBSTITUTE FOR PRESERVES.—A lady writer in an exchange communicates the following bit of information obtained where she "took tea last:" "A dish of what I took to be preserves was passed to me, which, upon tasting, I was surprised to learn contained no fruit. The case with which it is prepared, and the trifling cost of its materials, are not its chief recommendations, for unless my tasting apparatus deceived me, as it is not usually wont to do, it is emphatically a tip-top substitute for apple-sauce, apple-butter, tomato preserves, and all that sort of thing. Its preparation is as follows: Moderately boil a pint of molasses from five to twenty minutes, according to its consistency, then add three eggs thoroughly beaten, hastily stirring them in, and continue to boil a few minutes longer, when season with a nutmeg or lemon.

THE UNFORTUNATE investment of Richard Cobden, the great English free trader, in the Illinois Central Railway, is thus satirized by the London *Punch*:

"England's grand expositor,
Cobden, the great, who absolutely bagged
The sum of seventy thousand pounds, the fruit
Of simple shocking and audacious speech,
And sunk it in the rails American."

RATHER COMPLIMENTARY.—The proprietor of a hotel in the capital of a western State posted the following notice in the hall leading to the dining room:

"Members of Assembly will go to the table first, and gentlemen afterwards.

N. B.—Rowdies and blackguards will please not mix with members, as it is hard to tell one from the other."

LATEST NEWS!

BY LAST NIGHT'S REPORT

Congressional Proceedings.

WASHINGTON, March 21.—9 P. M.

SENATE—Mr. Trumbull presented the proceedings of the Board of Trade at Chicago, asking for an Assay office.

Mr. Mason presented the resolutions of the General Assembly of Virginia, in regard to bounty land warrants to Virginians engaged in the revolution.

Mr. Green introduced a resolution requesting the President to communicate to the Senate the correspondence between the Judges in Utah and the Attorney General or the President, in regard to the legal proceedings and salaries.

Mr. Bayard, from the Judiciary Committee, reported back the bill for the protection of female passengers on board steamships and other vessels, as it was passed.—This is the same bill that has passed the House.

After a debate on the amendment by Mr. Hamlin, making the reduction 25 per cent. on the present prices, was agreed to, as was also an amendment offered by Mr. Fitch, that the reduction shall apply to all the printing of the present Congress except the P. O. blanks, the bill was then passed.

Mr Mallory gave notice that on Friday he would call up the bill to increase and regulate the pay of the navy.

Mr. Hale offered a resolution which was adopted, that the President of the U. S. inform the Senate of any instructions that have been given to officers of the navy, by which in any event the naval forces of the U. S. were to take part in the civil war in Mexico, and by what authority certain Mexican steamers were captured and their officers and crews made prisoners.

The Florida claims bill was debated at some length, and postponed till the 16th of April.

The homestead bill was taken up.

Adjourned.

HOUSE.—Mr. Stanton, of Ohio, asked leave to introduce a resolution requesting the President to inform the House whether the recent capture of the two Mexican vessels in or near the port of Vera Cruz, by the United States sloop-of-war Saratoga, was in pursuance of the orders of the President or Secretary of the Navy, or whether the act of the officers in command of the Saratoga, has or will be approved by the President; also that the President be requested, if not incompatible with the public service, to communicate copies of all orders or instructions under which the vessels in the Gulf of Mexico are acting.

Mr. Crawford, of Ga., objected to the introduction of the resolutions.

The House then resumed the consideration of the resolutions reported from the committee on elections in the Sickles case.

Mr. Sickles spoke in support of his right to a seat.

Mr. Dawes replied in favor of his opponent Mr. Williamson.

Mr. Branch moved to table the whole subject; negatived, 80 against 94.

The resolution as reported by the Committee requiring Mr. Williamson to serve on Mr. Sickles within ten days a particular statement of the grounds of the contest and that Mr Sickles serve an answer within twenty days thereafter and that both parties be allowed sixty days to take testimony in support of their separate allegations was then adopted by 80 against 54.

Adjourned.

The Captured Steamers.

NEW ORLEANS, March 21.—9 P. M.

Miramon notified the foreign vessels that he would commence the bombardment of Vera Cruz on the night of the 13th, and he would not be responsible for the shipping anchored under the castle.

On the night of the 13th, the officers on the deck of the General Miramon heard heavy cannonading in the direction of Vera Cruz.

There were captured with the two steamers six mortars, six 32 pounders, and 2,000 stand of small arms. The steamers are worth $60,000. They broke down the third day and put into Sisal. The materials of war were stored away below, out of the sight of the men, who were ignorant of the destination of the expedition and were forced into the service.

Miramon's steamers returned the Saratoga's fire and then tried to escape. The Indianola pursued the Miramon, whereupon the latter fired upon her. The Indianola returned the fire, and the crew boarded the Miramon at the point of the bayonet. A portion of the Indianola's deck was carried away by the shot. The Miramon was then run aground, and the Saratoga brought the Marquess too.

The Picayune is informed by French prisoners on board the prizes that the fighting was done principally by the officers, who were obliged to charge and fire the guns, assisted only by the Mexican officers from the shore.

The two steamers had 250 men on board and their killed and wounded amounted to 40. The Indianola and Wave had 60 men each. The 1st. engineer of the Marquez, an American, was killed. Capt. Turner asked why he fired on the American vessels without provocation. Morin replied that his men could not be controlled. He knew the nationality of the Saratoga and understood her signals. The men fired contrary to his orders. Capt. Turner replied you are entirely responsible for the outrages. It is stated the expedition cost $300,000, mostly furnished in Havana by the government in accordance with a secret article of the Almont treaty.

The prize steamer Marquez is anchored opposite this city. Lieut. Chapman has received orders from Washington to remain here and forward his dispatches. He has despatches also for the British minister.

Juarez' proclamation declaring Morin's expedition piracy, and authorized any one to capture it.

Additional by the North Briton.

HALIFAX, March 21—9 P. M.

The North Briton brings seventy-six passengers.

The Cork papers of Thursday contains the following news: War is extremely probable between Austria and Piedmont. Piedmont is buying cavalry horses in France.

It is stated that Count Arese has been entrusted by the Emperor Napoleon with the mission to bring about a definite settlement between France and Piedmont on the Savoy question.

FLORENCE, 7th.—A government ordinance has been issued suppressing all former decrees against the liberty of the press.

NAPLES, 3d.—There was a grand military display on the 1st.

Some persons of high distinction have been arrested, and several noblemen are about to be exiled.

Great activity is being displayed in the arsenals.

Letters from Sicily announce the Attorney General has been murdered, and that a fulminating bomb had been thrown at the Director of Police, through which two persons were wounded.

Rome, 3d.—Great agitation prevails in the Marches, and tri-colored flags are hoisted nightly.

Vienna, 6th.—It is stated that the Austrian government had received positive information from Bologna, that the troops commanded by Gen. Steffandle will insist upon returning to Tuscany.

MOROCCO.—The news from Morocco is to the 28th of February.

The permanent occupation of Tetuan by the Spanish had been definitely agreed upon, and 10,000 beds had been ordered to be sent there.

Several battalions in the Peninsula had been ordered to be ready to go to Africa upon first summons.

A letter by the Sultan of Morocco was read on the 25th February, at the principal mosque in Tangiers, announcing his rejection of conditions of peace proposed by Spain. He says he is coming to the northern provinces with a large force, that there is little prospect of peace, that he has ample funds, and that he will prosecute the war to the end if he loses all his sea-ports. He exhorts all true believers to arise in defense of their country, and says that he has given orders to put to death all plunderers. The Sultan acting on the concluding announcement had dismissed the Arab cavalry who plundered Tetuan and beheaded many of their chiefs. An interview took place on the 23d of Feb., between Marshals O'Donnell and Mully Abbas. The cession of Tetuan was discussed, but the representatives of the Sultan were not prepared to accede to the demands of Spain, and the negotiations came to an end.

Washington Matters.

WASHINGTON, March 21—9 P. M.

The government, with such information as is now in its possession, approves of the recent conduct of our naval officers in the Gulf of Mexico. The refusal of the Miramon steamers to show their colors when asked to do so was considered sufficient to place them in the position of pirates.

The President has recognized Carl Otto White as Vice Consul of Sweden and Norway at Charleston, and Charles J. Sunded as Vice Consul of Sweden and Norway at Chicago.

All the Democrats and South Americans, with two exceptions, present in the House to-day, voted against the resolution providing for the taking of testimony in the contested election case of Williamson against Sickles. These two South Americans, who voted with the majority, are Adams and Anderson, of Kentucky.

The resolutions of the committee on elections, in the case of Howard against Cooper, of Michigan, declaring it unexpedient to allow further time for Mr. Cooper to take testimony, will be called up to-morrow.

The bids for printing the Post Office blanks were opened to-day. Mr. Crowell, of New York, offers to execute the work for 93 cents, and Mr. Thomas, of Buffalo, for 94 1-2 cents loss on the dollar than the government has heretofore paid.

Murder and Robbery in New York Harbor.

NEW YORK, March 11—9 P. M.

The oyster sloop E. L. Johnson, of Islip, L. I., was found abandoned in the bay early this morning, and on investigation it was proved that the captain and crew, George Burr, Smith Watts, and Oliver Watts, had been murdered by the river pirates. The vessel was covered with evidences of the horrible deed which was doubtless done for the purpose or obtaining some $500 in money on board.

Destructive Fire at Oswego.

OSWEGO, N. Y. March 21—9 P. M.

A fire broke out this evening in Empire Block, and before it could be arrested entirely destroyed Stone & Co.'s dry goods store, Lenk & Michaels clothing store, and Eldridge & Smith's shoe store. Stone & Co.'s loss $30,000; insured $14,000.

Fire at New Orleans.

NEW ORLEANS, Mar. 21—9 P. M

A fire occurred in the Union Warehouse yesterday, by which 500 bales of cotton were destroyed, involving a loss of $25,000.

HALIFAX, March 21—9 P. M.

The wind is blowing a gale from the Southwest, and the weather is very thick. There is no probability of the arrival to-night of the steamer Canada, now due with three days later European news..

COMMERCIAL.

MONETARY.

WEDNESDAY P. M., March 21st, 1860.

There is a barely perceptible improvement in the money market. Currency begins to move more actively, and discounts a little easier.

We have the following by telegraph from New York to day:

Stocks—Dull and lower; Chi & R I 65¾; Gal & Chi 81½; M S and P du C 31½; Harlem pref 35, Harlem 9¾; Hud 85¾; N Y C 74¾; Canton 29; Pac Mail 95¾; Hud 5s due 80; Mo 6s 80¾; Ohio 70@70½; U S 6s 98; Coupons 10½.

The New York Evening *Post*, of Thursday last, says:

The Directors of the Milwaukee and Mississippi Railroad Company are conferring to-day, with the view of placing the road in the hands of the trustee of the third mortgage, agreeably with the suggestion in the annual report.

COMMERCIAL.

WEDNESDAY P. M., March 21st, 1860.

Receipts by Railroad for the 24 hours ending noon to-day include:

Flour, bbls	1,010
Wheat, bus	11,029
Oats, bus	1,591
Barley, bus	598
Corn, bus	914
Hides, No.	67

The wheat market to-day was dull, and not much change in prices. A few small parcels of No. 1 changed hands at $1 in store, and one sale was made at 99½c—a decline of ½c. There was not much disposition to operate, however, either on the part of buyers or sellers. Extra was a little firmer, not being so plenty, and millers paid as high as $1,03@1,03½ for choice samples.

No sales of flour reported. Coarse grains unchanged. There was a pretty good demand for barley, but brewers would not pay outside of 65c except for very superior samples. Corn 50@51c. Oats nominal.

HOW IT PAYS SHIPPING WHEAT FROM LA CROSSE AND WINONA TO ST. LOUIS.—It was the general impression here some weeks ago, that as soon as the ice had disappeared from the river, the high prices of wheat at St. Louis would attract thither a large share of the wheat on the Upper Mississippi, so wide was the difference between rates here and there. The ice has pretty much all vanished, river navigation is about being resumed, but we find the difference between the two markets vanishing with equal rapidity. The big margin of 18 cents ℔ bushel, which appeared against the market in the comparison a few days ago has already dwindled down to 5c, and with a couple of weeks receipts, such as they had there on Monday—24,000 bus—will in all probability be completely wiped out. It will be seen that common spring Wheat was quoted at $1,15 at St. Louis day before yesterday, with a dull and drooping market. The same quality sold here at $1,00. The freight on Wheat from Winona and La Crosse to St. Louis by the river is 20c; from La Crosse to this city by railroad 10c, which leaves a margin of 8c in favor of St. Louis, taking for granted that there is no new further decline here. Not to speak of insurance, and the comparatively great length of time required to "realize" from shipments to that market.

PROSPECTS OF THE WHEAT CROP SOUTH.—The St. Louis *Democrat* says:

There has evidently been much of the winter wheat crop in this section of the country destroyed. A gentleman just down from Quincy, Ill., yesterday, says farmers are buying spring wheat for seed in that city, to a large extent, and in Brown, Adams, and McDonough counties, Illinois, as well as in the counties in Missouri opposite Quincy, the wheat crop is winter killed. The following from a paper of that vicinity, may be considered reliable:

We are not disposed to estimate very highly the forebodings so common at this season of the year at the prospects of the winter crop, but from personal examination, as well as the reports of farmers in all parts of the country, we are forced to the conclusion that the wheat crop in this country, the present year, will be a failure, almost total. We have examined fields which two weeks ago promised fair crops, but now haven't wheat enough on them for the spears to look neighborly. The roots are frozen out in the ground, and perfectly dead. The freezing of the last few weeks has nearly finished them. If the crop is not less than either of the last four years we shall be agreeably disappointed.

Isn't it about time that the farmers were looking about for some substitute for wheat? We shall discuss this subject at some length hereafter.—*Cortlandville Democrat*, 15th.

The following from the Alton *Courier* is of the same import:

A gentleman from Jersey ville, whose business has taken him over a considerable part of Jersey county, and has given him an acquaintance with a large proportion of its inhabitants, reports relative to the wheat prospect, that it is not near as good now as it was a fortnight ago. The late snow was much injured by the winter, but some fields in favored localities were still very good on the first of the month. The warm days and frosty nights of last week, however, were exceedingly bad for them. He says that not more than half a crop can be expected. Another gentleman says there will not be enough good wheat for next fall's seeding.

The following from a Tennessee paper published at Greeneville, is of a rather different tone:

"In our recent trip to Rogersville, we must have passed near one hundred fields of wheat, and without exception, we do not think we passed a field but what now promises to make a fair crop. Three years ago we made the best crop ever made in the country, and the present prospect, so far as we have seen, is about the same as that was at this season of the year. Gen. Lowry was with us during our trip to Rogersville. We were both very particular in our observations, so that we might be able to give something that would be reliable. We must say that our citizens in the upper East Tennessee need have no fears of a failure of the wheat crop this year. We have no doubt but some few fields in certain localities may make a partial failure, but that will amount to nothing much as there is but an usually heavy crop out this year.

THE STOCK OF CORN ON THE ILLINOIS CANAL AND RIVER.—An intelligent observer, who has just returned from a trip along the Illinois and Michigan Canal and the Illinois River, as far down as Bath, reports the following as the amount of corn in store at the points named:

	Bushels.
At Lockport	30,000
" Joliet	30,000
" Morris	50,000
" Seneca	50,000
" Marseilles	20,000
" Ottawa	40,000
" Peru and Lasalle	40,000
" Henry	15,000
" Lacon	15,000
" Chillicothe	65,000
" Spring Bay	30,000
" Rome	10,000
" Pontiac	150,000
" Pekin	50,000
" Spring Lake	50,000
" Copperas Creek	25,000
" Havana	200,000
" Bath	150,000
Total	1,025,000

There are several places intervening between the above named points, but they are not very important. The great bulk of this corn will probably go to Chicago—Bath being the point where the corn usually turns that way.

TRADE OF DETROIT.—The following statement shows the receipts by Railroad at Detroit during the week ending March 20th, and since January 1st:

	Past week.	Previous week.	Since Jan. 1.
Flour, bbls	4,167	4,157	34,705
Wheat, bus	7,220	3,446	45,500
Corn, bus	13,247	9,400	73,400
Oats, bus	2,000	926	8,797
Wool, lbs	15,282	12,927	131,067
Butter, lbs	66,344	21,584	377,182
Live Hogs, No	1,998	1,252	9,250
Dressed Hogs	259	17	17,959

The figures include the through shipments of flour by the Michigan Central from Chicago, and also by the Detroit & Milwaukee Railway from this city.

CINCINNATI MARKET, MARCH 17TH.—Receipts at Cincinnati on Monday, as published in the *Commercial*, include:

Flour, bbls	1,507
Corn, bus	831
Wheat, bus	2,644
Oats, bus	2,209
Barley, bus	5,016

The *Commercial says* of the markets:

Flour continues to be very dull, there being neither speculative nor shipping demand. Wheat commands scarcely so good a price as on Saturday, and sales of 50 @ bus from the highest quotations of last week may be noticed.

Corn is unchanged; Oats in better enquiry at 1c ℔ bus higher. Rye is steady at $1,58. Barley is very firm, ranging from 90 to 95c.

The Provision market is very quiet, though there is some nibbling for stuff at a small fraction under the current quotations. Some enquiry exists for Lard, and purchases are made at 10½c. A sale of 50 bbls Mess on sides was reported at 9½c. The standard of prices may be quoted at 6¾@8½c for bulk shoulders and sides, 7¾@8½c for bacon, and $17,25@17,50 for mess pork. For heavy bulk or bacon sides, ¼c higher was asked.

CHICAGO MARKET, MARCH 20TH.—Receipts of the articles named, at Chicago yesterday, were as follows:

Flour, bbls	1,612
Wheat, bus	21,221
Corn, bus	1,974
Oats, bus	1,654
Barley, bus	1,654

The demand for flour was exceedingly light, and the market unmistakably dull, with a downward tendency. The sales of spring extras were principally limited to 4,00 for good brands, and $4,00 for good spring superfine. Wheat opened rather dull, and improved on Change; but after the receipt of the New York dispatches it again drooped heavily, and went quite dull, the market ranging from 86¾@88c for old receipts No. 2 spring in store, and 85@85½c for fresh receipts of the same grade. Corn advanced ½c, and was tolerably active, but closed rather quiet, with sales of new receipts No. 1 at 44@44½c, No. 2 at 42c, and rejected at 41c. Oats were again in active demand for shipment south, and the outside figures of yesterday were freely paid. Sales being made at 32 for receipts No. 2 spring, and 36@36½c on track. Rye quiet on firm. Barley in better demand and market firm—No 1 selling at 60c in store, and at 65@70c delivered in bags. Clover seed quiet. Timothy steady and in active demand for good and choice parcels, for which a slight advance was paid in one or two instances. There is a large quantity of foul and dirty timothy on hand, and the demand for it was not so good. Hungarian Grass is heavy, under a large stock and limited inquiry—fair quality being sold to-day at 75c. Highwines steady at 19½c. The sale of 200 bbls Mess Pork for delivery on the 15th of April at $17, made a few days ago, was not consummated; but to-day the sale was repeated. Lard is quiet but firm at 10¾c. Tallow dull. Hides steady. Butter dull.

ST. LOUIS MARKET, Monday.—The St. Louis Union market it will be perceived is coming down rapidly.—On Monday the receipts were 2,781 sacks, or about 24,000 bushels mostly club and common fall wheat, and the market declined from *three to five cents* per bushel on those grades. Common spring to choice club sold at $1,12@1,21. The Corn market was active, as regards choice white and yellow, and prices were sustained, but mixed and ordinary yellow were dull and a shade lower. Oats were in good demand and firm.—Little was done in Barley and Rye; market unchanged. The receipts of flour by river and road were 2,256 bbls. MARINE ITEMS.

WEDNESDAY, P. M.

RIVER NEWS.—The Wenona *Republican* of Monday evening, says:

The steamboat *Grey Eagle*, Capt. Harris, arrived at our levee this morning from Galena, with a fair load of passengers and the Eastern mails. She went up river to Reed's Landing, and will return Saturday at 5 o'clock. The captain intends to run down to St. Louis this trip and take his place in the Northern Line.

The *Chippewa Falls* passed down to-day. The will return from St. Louis to the foot of the Lake until the ice is clear from that barrier of navigation to St. Paul.

Capt. Davidson is getting the *Keamic Steele* in order for running from St. Paul to the head of the Lake as soon as the ice moves out above which is expected to take place as soon at Monday next.

FROM SAGINAW BAY.—The Detroit *Tribune* of last evening has the following:

The steamer Forest Queen reached Saginaw last Saturday, and on Monday morning started for Bangor Bay to take a lot of fish for this city. She will be here on Wednesday and leave for Saginaw on Thursday.

She found no ice that impeded her progress in the least. Along the shore of the Bay there is considerable yet remaining, but it has become very brittle, and must soon disappear.

SAVE YOUR SIGHT

H. W. ANGER,

PRACTICAL OPTICIAN,

RESPECTFULLY ANNOUNCES TO the Public, that he has imported from RATHENOW, GERMANY, and now offers for sale, a large assortment of

PERSPECTIVE EYE GLASSES

AND SPECTACLES

of the finest purified flint, which show the clearest, truest and most correct series of glasses permit every ray of light to pass completely through them—they will not only enable the purity and brilliancy of objects to be seen, but will preserve and even strengthen the sight, which very often, by other glasses is ruined.

My SPECTACLES are celebrated for the superior quality of the glasses, as well as NEATNESS and ELEGANCE of finish, for which they received the award of Paris,
